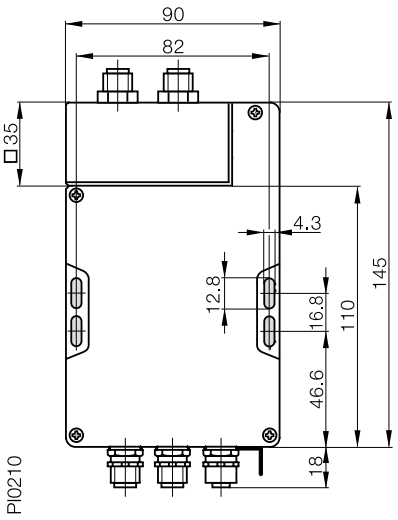
Number of connectable antenna	2CH (Built in converter)
Interface	Device Net
Dimension	



Interface	Device Net

Type	Applicable Data carrier	
	511	bytes
	1023	bytes
	2047	bytes
	8K	bytes

BIS C-6003-025-650-03-ST12

Supply voltage	24V DC±20%
Current consumption	0.4A
Operating temperature range	0...+50℃
Connection to ID converter	Connect R/W head directly(4PConnector x 2)
Connection to external devices	5 pin Connector x 3
Remarks	
	EDS file included
Please request the instruction manual for details about specifications.	Protection class：IP 65
